## **Major Redevelopment of Dulwich Preparatory School, Cranbrook on site – 15/08/07**

Lee Evans Partnership's design for a major redevelopment of Dulwich Preparatory School Cranbrook's lower school campus, which will dramatically improve teaching and ancillary accommodation, is now on site with completion scheduled for the start of the Autumn Term 2008.

The scheme includes replacement of the Lower School's old timber framed classrooms with a substantial new school building and hall, the addition of a 'learner' swimming pool and future planned conversion of existing school buildings to staff accommodation.

A key design element is the striking entrance to the new school building, a semi-circular glazed drum on columns, which will create a focal point clearly visible from the road, through a newly landscaped area.

Eco-friendly features will include bio-mass fuel heating and rooflights to maximise daylighting and natural ventilation.
