

John Minter RIBA

John joins LEP Architect Team 04/10/07

Lee Evans Partnership is pleased to welcome architect John Minter to the Practice. John is married with three young children and was previously employed by Cyma Architects, in Ashford.

He says his architectural preferences lean towards ecologically sound building design and the use of materials which come from fully sustainable sources or are at the very least fully recyclable.

In his work he is keen to promote the work of small local artisans such as joiners, stonemasons and specialists in ironwork.

Personal interests include fell walking, cycling, folk music and industrial archaeology.
